JONES PARTNERS & FAMILIES

Mission: The purpose of the Jones Partners and Families club is to provide additional opportunities for students with significant others and families to network and support each other outside of class. With a student's schedule, it can be difficult to find events that are inclusive to the rest of our lives as well. Thursday Partio's are great, but if you can't stay out late because you have little ones to put to bed or if your partner needs to head to bed at a decent time in order to go to work on Friday then you can feel as though week after week you're forced to choose between what you want to do. Towards this, we want to offer not only inclusive events but also a support network for students to manage the constant pull and additional demands on their time. We want to ensure that all students, with their partners and families, have the best experience the Jones school can offer during their time at school
